

To Whom It May Concern:

This will certify that Pecora Urexpan NR-200 two-part, cold-applied, self-leveling, polyurethane sealant meets the requirements of ASTM Specification D-1850 on concrete when properly primed and ASTM Specification C-920, Type M, Grade P, Class 25, Use T, NT, M, A, and O when properly primed.

This will also certify that Pecora Urexpan NR-200 two-part, cold-applied, self-leveling, polyurethane sealant meets the requirements of Interim Federal Specification TT-S-00227E (COM-NBS) October 9, 1970, Amendment 3, Type I, self-leveling, Class A and Class B, on concrete when properly primed. In addition, Pecora Urexpan NR-200 two-part, cold-applied, self-leveling polyurethane sealant meets the requirements of Federal Specification SS-S-195b, February 1970, Type H, when properly primed, and Federal Specification SS-S-159b, August 28, 1958, when properly primed.

NR-200 complies with local regulations controlling the use of volatile organic compounds. NR-200 Urexpan contains no asbestos or lead in it's formulation. The VOC contents for this product are 0 g/l on both the activator and base. This product is manufactured in the United States.

Sincerely yours,

Roy D. Cannon, Jr.
