

898NST Product Certification

To Whom It May Concern:

This will certify that Pecora 898NST silicone sealant conforms to the requirements of ASTM Specification C920, Type S, Grade NS, Class 50, Use NT, G, A, M, and O.

Also, this will certify that Pecora 898NST silicone sealant conforms to the requirements of Federal Specification TT-S-001543A (COM-NBS), June 9, 1971, non-sag, Class A and Class B, as well as conforming to Interim Federal Specification TT-S-00230C, Amendment 2, Class A and Class B, February 20, 1970, Type II, non-sag.

Pecora 898NST Silicone is USDA approved and acceptable use in processing or storage facilities for meat or poultry food products. Pecora 898 is specifically formulated to be resistant to mold and mildew growth.

Pecora 898NST contains 50 g/l volatile organic content (VOC). This product is manufactured in Harleysville, Pennsylvania.

Pecora sealants and waterproofing products are manufactured in the United States and meet the requirements for use as "Domestic End Products," as stated in the Buy American Act Title 41 USC 10.

The test for an item of domestic construction material has two parts:

1. It must be manufactured in the United States, and
2. The cost of the products domestic components must exceed 50 percent of the cost of all components.

Pecora 898NST Silicone does not contain asbestos or PCB as part of its formulation.

Sincerely yours,
